

# O

## MNIBUS

is a multi-client

shared research vehicle targeted to the general public. It's a classic, proven research instrument allowing comparison over time. The survey is a fast, cost effective and reliable way of obtaining information about the total population or your targeted audience. Although the vehicle is shared, the results from your questions are confidential and only available exclusively to you.

# P

## ARC

will release

November wave of Omnibus tracking survey for which we will appreciate confirmation from your end on or before October 24<sup>th</sup> 2013

**Concise  
Questions... Precise  
Answers**
